

**SAS Honors Seminar 259:  
Extraterrestrial Life**

**10/22/2008**

# Names in the hat at the halfway point...

**4** Chris, Kyle, Salman

**[updated after class!]**

**3** Joey, Luke

**2** Corey, Desiree, Eric, Nauman, Paul

**1** Jessica, Samantha

**0** Kelly

# Reading for Monday (10/27)

**Bennett & Shostak 9.3 – possibility of life on Titan, as well as the other moons of Saturn, Uranus, and Neptune articles from the Planetary Report (2005-2008) – the Cassini/Huygens mission to Saturn and Titan**

**Lorenz (2008) – discussion of prospects for (remotely) exploring Titan by balloon [skim only]**

# Due in the near future

**Wednesday 10/29: mid-term project**

- please do not wait until the last minute
- my office hours are Friday 1-2:30pm on Busch

**Monday 11/3: response paper #7 (Do you favor Mars, Europa, or Titan as the target for NASA's next big astrobiology mission?)**
