

To: Participants in the Rutgers Town Meeting

In early December 2006 there was a town meeting at Brookhaven National Lab on Education and Outreach in Nuclear Science. Recommendations concerning education and outreach in nuclear science, and a white paper that provides background for the recommendations and how the recommendations could be realized, has emerged. The recommendations will be presented in the respective town meetings Sunday afternoon. You are invited to join us for a more in-depth discussion of the education and outreach recommendations and the white paper. An informal session will be held Friday evening Jan 12 over a light (no host) dinner, time and place to be determined.

Please contact Jolie Cizewski, [cizewski@rutgers.edu](mailto:cizewski@rutgers.edu) if you would like to join us, so that we can order food, as well as inform you regarding the meeting room. Let Jolie know if you will have a car or would need a ride, should the meeting not be held at the Doubletree.

We look forward to seeing you at Rutgers.

Jolie Cizewski, Rutgers  
Tim Hallman, BNL  
Peggy McMahan, LBNL  
Sherry Yennello, Texas A&M
