ICLICKER REGISTRATION

These are the correct instructions for registering your I-Clicker, with additional details.

1. **PURCHASE THE ICLICKER (note the brand name is iClicker® - no other clicker will work in this course).**

    - Either iClicker, iClicker+ or iClicker 2 devices will work, but **not the "iClicker Go" mobile app**. Available from the Rutgers Bookstore and other stores. You can also buy a used iClicker and you can use an iClicker in more than one class.

    - **You CANNOT share the same iClicker with another student** (even somebody who would use it in another class) because the unique ID built into it must be associated with only one name.

2. **REGISTER THE ICLICKER**
    - Go to http://www.iclicker.com/registration/ (or link from iclicker.com)
    - From the drop-down menu below "Which software will your instructor use in class?" Select **"iClicker Classic (formerly iClicker 7)" .** From the drop-down menu below "Which Learning Management System does your instructor use?" Select **"My institution does not use an LMS"**
    - Enter your first name, last name (no nicknames, no abbreviations) and your **Rutgers 9-digit student ID number**, not your SSN, not your NetID .
    - Enter your clicker id printed on a tag on the lower rear of the I-clicker .
    - Type the verification number on the screen.
    - You will see an on-screen message confirming that registration was successful. Your Rutgers ID is now tied to your unique I-clicker ID.
    - We recommend you copy your clicker id number and keep it in a safe place because the id number tends to wear off the I-clicker back.
    - If you lose your clicker and get another, you must register again (and tell Prof. Cizewski)

3. **USING THE ICLICKER**
    - Pull the plastic tab on the back of the I-Clicker out, to activate the batteries.
    - In class, turn I-clicker on with the on/off button. The solid blue power light will go on.
    - When requested, respond to a question by pressing one of the A,B,C,D,E buttons.
    - A green light will go on to show your response has been recorded. (a red light will go on if it has not been received, e.g. if you try it at home)
    - No other students will know your response.
