

Homework – lectures and ANNOUNCEMENTS on webpage.

<http://www.physics.rutgers.edu/~croft/>

Prof. Available (off. Hrs) ~ 1hr before and after every lecture for questions/help.

Simple/cheap calculator ( no graphing calculator, no formula memory storage) for exams.  
( learn to use same calculator for home works)

Sun. Oct 14, EXAM#1 8:10–9:40PM//Sun. Nov 11 EXAM#2 8:10–9:40PM//Final Tues. Dec. 18 4-7 pm

Grades Exam 1 20% // Exam 2 20% // Quizzes 20+% // Final 40%

Intend to post homework problems all posted now {physics204 fall2010}  
and post homework solutions after they are reviewed in recitation.

Do homeworks – the way I learned physics.

{use test formula sheet when you do your homework}

Go to recitation and take quiz (recitation grade helps pull up overall student grade 20%+)

Note: I write my tests with my lecture notes in mind.

Solicit recitation/lecture feedback. - anonymous if so desired

– do not wait till the end of the semester before mentioning a problem

- 
- pre-read/scan assigned chapter.
  - Print out and scan lecture notes.
  - Annotate lecture notes during lecture ( asked questions when you don't understand).
  - Do your homework (note questions to be asked in recitation or before/after lecture.)
  - Go to recitation to see how to do homework problems.
  - Review posted (day after recitation) solutions to homework.
  - Review posted homework solutions with upcoming quiz in mind.
