Post-Test for Physics 123

All engineering students are taking Pre and Post Tests in physics this year. At the beginning of the semester you took a Pre-Test in recitation. The Post-Test and the attitude survey must be taken in order to get the 2 points credit towards your grade. To repeat, all the four parts (pre-test, pre-test online survey, post-test, post-test online survey) must be taken to get the credit.

The online survey will open on Dec 1, and will close on Dec 11 (midnight). The link to the survey is https://rutgers.qualtrics.com/SE/?SID=SV_8eHwVu0B0LZxriR

The Post Test will be administered in recitations during the three days before Thanksgiving, Nov. 23-25, and in the recitations on Dec. 7-10. Read carefully the schedule below, as class day changes are in effect:

Post-tests will be given at regular recitation times on:

<table>
<thead>
<tr>
<th>If your recitation is on:</th>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>
<td>You should take the test at your regular recitation time on:</td>
<td>Mon Nov 23</td>
<td>Tue Nov 24</td>
<td>Wed Dec 9</td>
<td>Thu Dec 10</td>
<td>Wed Nov 25</td>
</tr>
</tbody>
</table>

You should attend the post-test at your regular recitation, according to the above schedule. If, for any reason, you need a makeup, you can go to the Monday Dec 7 (1:40pm-9pm), and Tuesday Dec 8 (8:30am-9pm) recitations. Check the course website for Mon and Tue recitation schedule. NO OTHER MAKEUP OPPORTUNITIES will be offered.

To those having recitations on Monday and Tuesday: if you take your pre-test on Nov 23-24 (as you should!), you should not attend Dec 7, 8 recitations.

The test takes about 45 minutes. Although your responses to these tests and surveys will have no bearing on your course grade, taking all of the assigned pre and post testing will improve your grade.

It is important to give your best effort on this test. This is how we are best able to measure how effectively we are teaching you this semester. So you will be helping make this course, and your other engineering courses, more effective.

Your instructors will not see your scores, and will keep track only of whether or not you took the tests. Even though you are required to take the tests, you will have a no-penalty option of having your data withheld from the study if you choose not to participate.
